

Nitrates & Farm Income Diversity Seminar

Thursday, February 7, 2019

1:00-3:00 PM

Green County Justice Center
Multi-Purpose Rooms, Lower Level
2841 - 6th St
Monroe WI 53566

Topics and Speakers

- **Nitrate in Groundwater**

Why does Green County have such high levels of nitrate? Does it come from manure, commercial fertilizer, or something else? How can we lower our nitrate levels? Would cover crops help?

Kevin Masarik, *Groundwater Education Specialist, UW-Stevens Point*

- **Diversify Your Farm Income**

This presentation will include a discussion on how to make more farm income but not the traditional way. Are there different crops we can be growing to make us more profitable? Is there a local need for cover crop seed or other specialty crops?

Gene Schriefer, *Iowa County UW-Extension Agriculture Educator*

If you have questions or need additional information, contact Jackie McCarville, Green County UW-Extension Ag Agent at 608-328-9440 or by email at jacklyn.mccarville@ces.uwex.edu or Tonya Gratz 608-325-4195 or by email at tonya.gratz@wi.nacdnet.net

R.S.V.P. To Green County UW-Extension at 608.328.9440 by February 1st, 2019.
