

 **GREEN COUNTY  
LEADERS**  
*to serve, to grow, to achieve ...  
putting the pieces together*

10 Year Anniversary Report

## What is Green County Leaders?

A unique program that develops individuals to strengthen Green County businesses, organizations, and communities.

Green County Leaders (GCL) is a community-based leadership program created in partnership with Green County UW-Extension, Blackhawk Technical College, and Green County Development Corporation. Since its inception in 2002, the program has graduated close to 200 community and business leaders, many of whom have taken on greater roles in community organizations and governmental boards and committees.

The program begins with an orientation at the end of August and continues one day each month from September through May. Program days are dedicated to both personal leadership development and community orientation and are led by a variety of trainers, facilitators, and community leaders. Additionally, there are required activities outside of

program days to encourage refining skills, concepts, and tools introduced in sessions. Through a combination of networking, hands-on learning, and group projects, GCL participants develop valuable skills to benefit them both personally and professionally while helping to build better communities. This unique program seeks to establish an active, visionary, community leadership network and a collaborative environment with increased citizen participation. This enables communities to better work together to leverage resources, experience, and expertise for the benefit of our communities, organizations, and county.

*“GCL is an incredible program that everyone should have the privilege of attending at some point during their career.”*

*~ RoAnn Warden, Director, Green County Health Department*

*“Participating in Green County Leaders is a rewarding experience. I have applied the leadership skills from this program professionally, for myself and my clients, as well as contributing to our community to help ensure a healthy future here for my children.”*

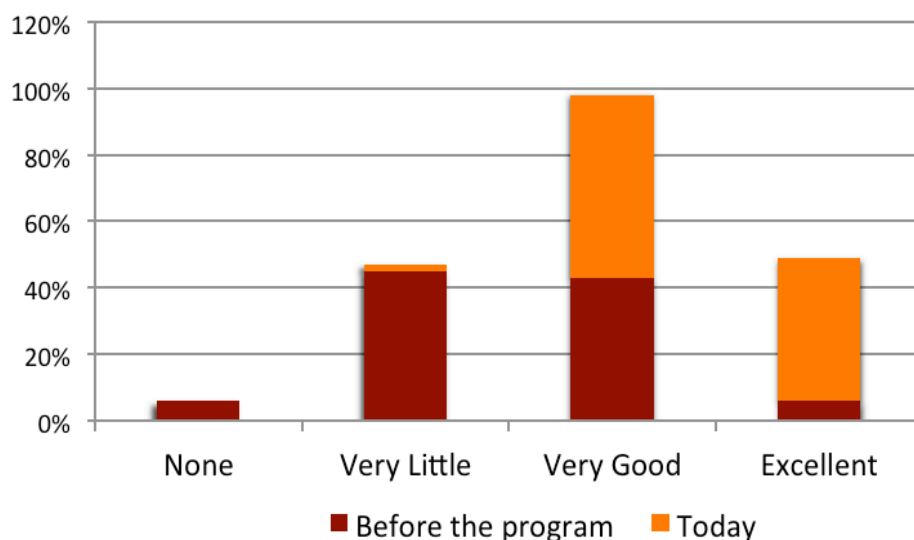

*~ Ron Markham, Market President, Wisconsin Community Bank*

## Knowledge & Awareness

GCL has a proven record of enabling participants to understand personal strengths and knowing how to leverage them, recognizing and honoring other people's temperaments to learn to communicate with them effectively.

How would you describe your ability to assess your personal strengths and weaknesses related to leadership?

"I became more confident in myself and my abilities. I learned to assess my situation and how to identify others around me who I could draw on to strengthen my situation. I was shown first hand how differences of opinion can actually be used in a positive way."

~GCL alumni

"I learned about my strong personality and how to work with employees, how to work toward a win-win situation."

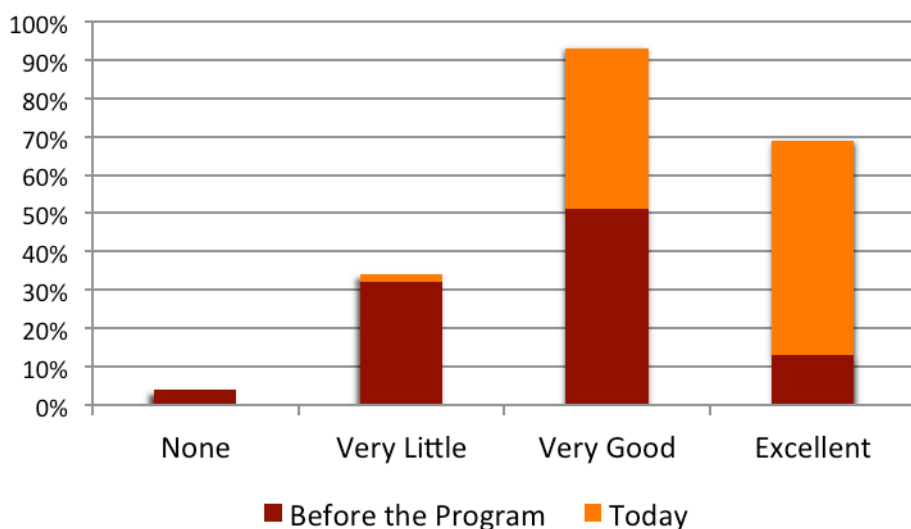

~GCL alumni

## Motivation & Confidence

GCL helps participants gain confidence in their abilities and motivates them to serve as leaders.

How would you describe your confidence in applying leadership principles in your work within your community or organization?

“Green County Leaders gave me the confidence to take an initiative in a community issue and create a solution. With this new-found confidence, I am able to not only lead efforts in my community, but also in my career.”

~GCL alumni

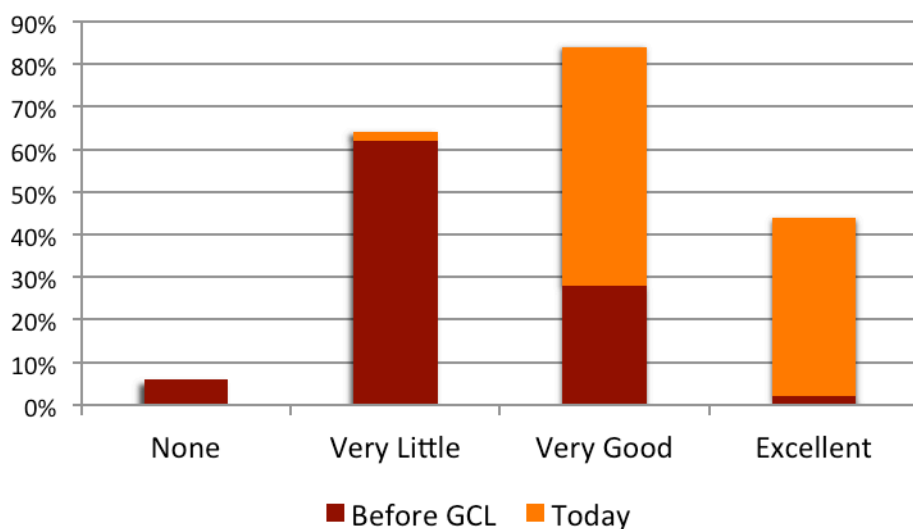

95% of GCL alumni surveyed indicated a “very good” or “excellent” motivation to strengthen their leadership abilities.

## Skill Enhancement

GCL understands the holistic nature of leadership and focuses on enabling participants to develop a variety of skills so they can serve as leaders in a wide variety of situations. These skills include effective communication, building collaborative efforts, leading groups, and more.

How would you describe your understanding and ability in facilitating change?

*"I learned that I could be a leader in everyday ways and that I had an important part to play in the development of the community and the county."*

*~GCL alumni*

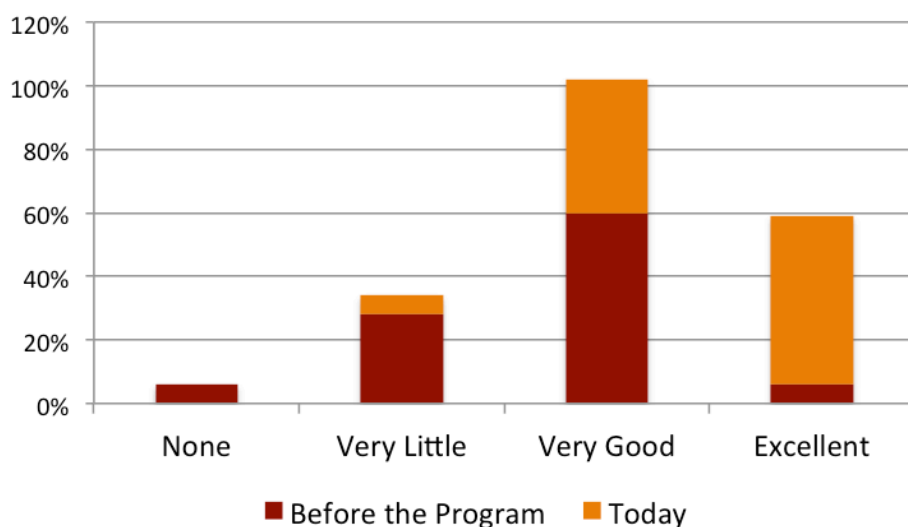

96% of GCL alumni surveyed indicated their understanding of collaboration and building collaborative efforts is "very good" or "excellent". This is a 33% increase prior to participating in GCL.

## Behavioral Change

Participants are encouraged to apply their new skills in their careers and in their communities. These skills, in combination with increased participant confidence, lead to meaningful behavioral change – benefiting the individuals, their employers, and their communities.

How would you describe your motivation to strengthen your leadership abilities?

"I gained the confidence to accept a leadership role in a service organization. I also acquired knowledge about my local community and Green County in general."

~GCL alumni

"I saw places that I would have never gone to or thought about. I have written grants and would never have had the confidence to do such things."

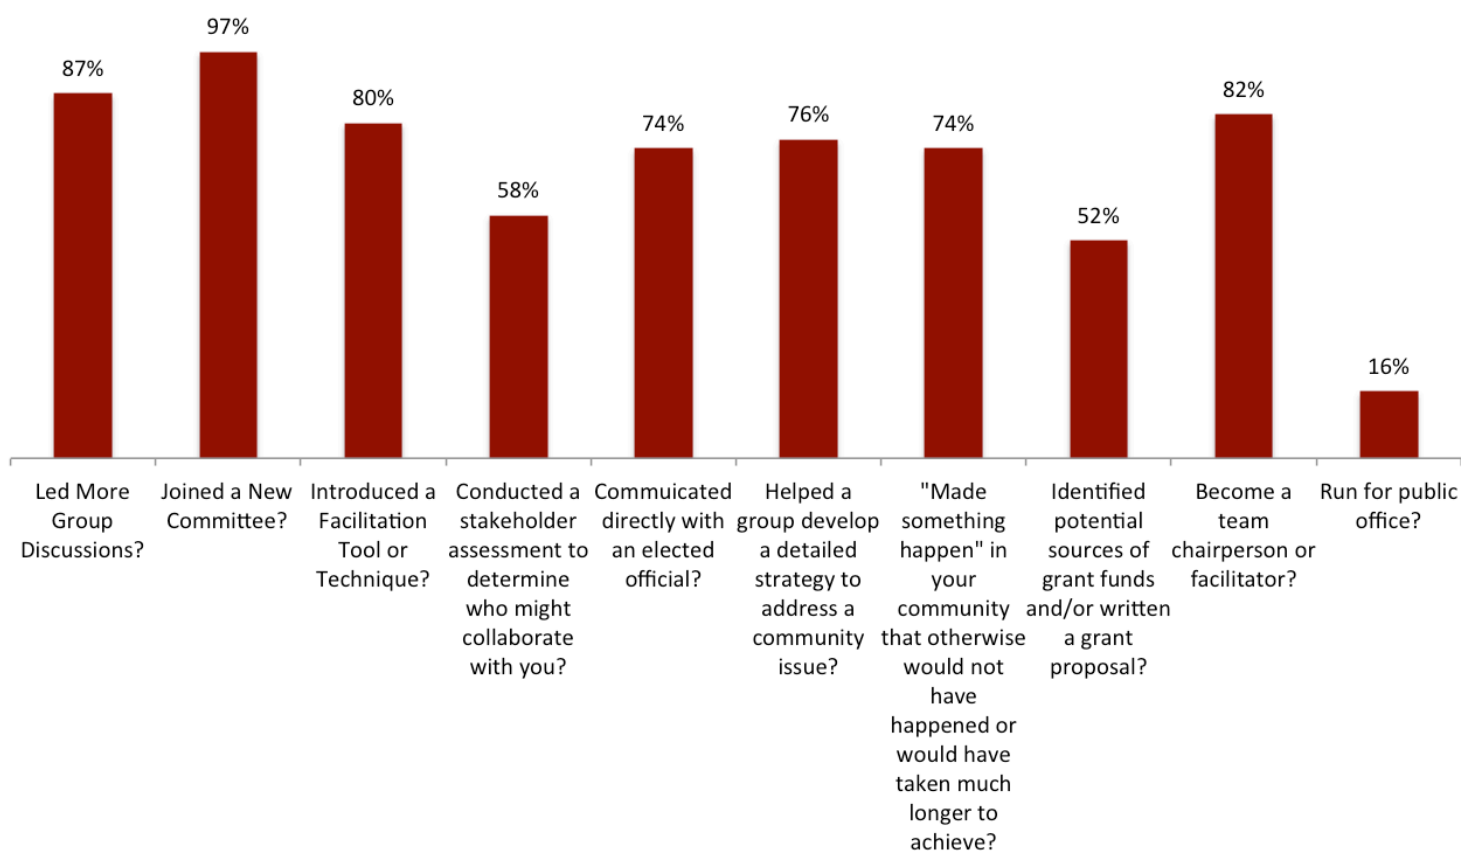

~GCL alumni

## Organizational & Community Change

GCL assist participants in seeing opportunities for leadership roles to benefit their businesses, organizations, and communities and enables and empowers them to take meaningful action.

As a result of your participation in GCL, have you...

# Applying Leadership Skills in the Community: Class Project Summaries

Over the course of the program, GCL participants have donated the equivalent of \$206,433 worth of volunteer hours to strengthen Green County communities!

Each year GCL participants work on a community project, applying hundreds of volunteer hours and invaluable experience to address challenges facing Green County communities. What follows is a brief description of these projects. Together, it is clear the skills GCL teaches have positively contributed to meaningful change.

## 2012-2013

**Silver Lining Project:** Homeless Awareness Campaign including presentations to a variety of students from Monroe and Brodhead schools, media announcements, and business promotions.

**SAHA Group:** Creation of a web site to educate low-income renters on housing options, for landlords to learn about the needs of low-income

tenants, and to provide a central database of rental property in the Green County area.

**Family Promise Video:** Creation of a video for Family Promise of Green County that helps to explain the Family Promise mission, purpose, and day-to-day needs.

## 2011-2012

**Literacy Council Awareness:** Focused on bringing awareness of the Literacy Council to Green County residents.

**Sustainability Expo:** Focused on areas of economic, social, and environmental resources for Green County that promoted individual, family, and community sustainability.

**Green County Humane Society Buy-A-Brick Campaign:** Creation of a Buy-A-Brick fundraising campaign for the

Green County Humane Society.

## **Visibility Toolbox for the Homeless:**

Creation of the “Golden Key to Volunteer Riches,” a toolbox of resources for the Homelessness Prevention Coalition of Green County to use in its efforts to increase visibility and to recruit and retain volunteers.

## 2010-2011

**Welcome to Green County:** Identified the need to create a social connection to our local community for people who have recently moved to Green County or for those considering such a move.

## **We Care – Snow Day Emergency**

**Meal Kit:** This kit provides emergency food and water to help a homebound person get through a snow emergency.

### Green County Leaders Helped Start Young Professionals of Green County

As our workforce ages, it is apparent to Green County employers that we need to attract young professionals. In response to this trend, GCL participants surveyed young adults to discover what they want to see in Green County communities. As a result of this survey, Young Professionals of Green County (YP of GC) was started as a collaborative effort in the spring of 2007.

YP of GC holds monthly events that cover the learning, networking, and social needs of our area's young professionals. Its purpose is to provide existing and future young professionals who live or work in Green County a means to network while having fun. The group works hard to promote Green County as a place that nurtures the social environment that today's young professionals want in a community. It is a great example of a very successful program made possible by leadership from GCL participants.

(Continued)

#### **Healthy Habits Start Young:**

Gathered data from a local school to help develop a strong case for a grant.

#### **Green County Volunteer Network:**

The development of a county-wide list of organizations and their volunteer needs. This list is posted on the Monroe Chamber website.

#### **2009-2010**

#### **Homelessness Awareness:**

To increase awareness regarding an increasing trend in homelessness in Green County by supporting the formation of the Homelessness Prevention Coalition.

#### **Making Green County More Green:**

This team challenged area students, businesses, and government employees to think about how they can make a difference in Green County on Earth Day.

#### **Pawlapalooza – A Fundraising Event for the Green County Humane Society:**

Assisted the Green County Humane Society to raise funds for the health and well-being of the animals in their care.

**Community-Based Funding:** Created a way to promote working with local vendors as sources of products that can be used in community fundraising.

#### **2008-2009**

**Green County Volunteers:** Created a forum, specifically internet-based, where organizations needing volunteers and volunteers looking for opportunities can meet.

**Green Grant Directory:** Explored what grant opportunities are available for green building and remodeling projects, dialogued with a business owner who has used this type of grant resource, and created a directory of options that businesses could use to quickly explore grant options.

**Dairy Tourism:** Explored the need for a marketing video to replace the Cheese Days Farm Visits and created that video.

**Connecting Past & Present Green County Leaders:** Explored the best way to improve communication between former GCL participants and current class members.

**Forward Brodhead:** Implemented ideas from Jim Ditto's *90 Days to a Winning Community* to create momentum and new ideas for implementation in Brodhead, with the goal of encouraging other community groups to follow these steps in their own communities for a renewed vision and purpose.

### **GCL Students Strengthened the Green County Council on Housing & Homelessness Prevention**

Homelessness has always existed in Green County, but the 2008 recession aggravated the issue. Green County saw a large increase in the number of homeless families and individuals. The Green County Housing Partnership explored ways to address this issue, creating the Green County Homelessness Prevention Coalition.

**The 2009-2010 GCL class developed a project to support the newly formed Coalition, leading projects and fundraising to maintain and strengthen the Coalition.** The Coalition has effectively created tangible, meaningful results. These include:

- Renting an apartment and paying rent subsidies for homeless families;
- Supporting a paid coalition coordinator who helps people avoid eviction or find housing;
- Acting as the springboard group to start Family Promise, which provides shelter and meals and supports homeless families by helping them create tailored plans to work towards independence.

(Continued)

## **2007-2008**

### **Green County Leaders Lend-A-Hand:**

Increased the amount of donations of goods and money to four organizations that serve residents in Green County – the Green County Inter-Church Food Pantry, Green Haven, Green County Humane Society, and CareNet Pregnancy Center of Green County's Family Resource site.

**Green County Humane Society Community Interest Survey:** Created and administered a survey of Green County residents to provide feedback on the Humane Society.

**What We Have and What It Takes: A Survey, Analysis, and Plan for Future Economic Development in Green County:** Identified what resources and assets Green County has, how it compares to the state and the nation, and where the county should focus its efforts in creating economic development.

**Welcome to Green County, A Relocation Guide:** Created a simple relocation guide for new residents to the county to give them easily accessible, useful information about important services and phone numbers.

## **2006-2007**

### **Green County Young Professionals'**

**Interest Survey:** Created an instrument to gather information from young professionals in the

county to see if there was a need for a social/networking organization for the young professionals.

**Sugar River Clean-Up:** Recruited volunteers and resources for a designated clean-up project focused on a portion of the Little Sugar River that flows through New Glarus.

**Green Recommendations for Green County:** Identified ways that the community could reduce the amount of energy that would be used in applying "green" practices to the new Justice Center's design.

**Improving Communication – Spanish-English Translators:** Identified ways the team could aid in the transition and acclimation of the new Spanish-speaking community members to the Green County community.

**Community Empowerment:** Created an effective means of communicating and empowering people in Green County.

## **2005-2006**

**Connecting Volunteers to Volunteer Organizations:** Created a method of connecting people who might like to volunteer with organizations that need volunteers.

**Linking Local Schools and Businesses:** Helped to identify and

**“Green County Leaders was a great experience for me. Learning about the needs of our communities helped me to better understand how we can all help to make a difference in Green County. The community projects were especially meaningful because we came together to help solve an issue touching lives in our own communities ...something very tangible and rewarding.”**

*-Nikki Matley, Class of 2007-2008  
Woodford State Bank*

encourage partnerships between schools and the communities.

**Green County Leaders Reunion:**

Facilitated the opportunity to unite graduates from all GCL classes and begin the process of creating an on-going resource group to address county needs.

(Continued)

**Green Haven Repairs:** Identified needs at Green Haven and organized and oversaw the filling of those needs through the labor of team members.

**Alternative Crops:** Identified ways farmers could reduce economic risks with focused planting through researching the options for diversifying the field crops planted in Green County.

**2004-2005**

**Improving the Green County Leaders Program:** Examined the content of the Green County Leaders class to determine whether changes could be made to improve the class.

**Strength Through People: Reducing Brain Drain in Green County:** Addressed the need to get post high-school age kids who have left Green County to return.

**Recruiting Volunteers for “Meals on Wheels”:** Linked volunteers from the business community with the Green County Transportation & Volunteer Coordinator so that the “Meals on Wheels” deliveries could continue to provide services in winter months.

**2003-2004**

**Community Leader Exchange Program:** To encourage the sharing of experiences and information among Green County municipalities.

**Sixth Grade Pilot Program:** Introduced sixth grade students to knowledge and skills to help them resolve conflict and avoid risky decisions and behaviors.

**Youth Asset Building Tools – From Student to Community Member:** Introduced the “senior project” program to high school administrators in Green County with the intention of implementation in the schools.

**2002-2003**

**7 Habits Training in Public Schools:** Introduced the teachings of Seven Habits of Highly Effective People in Green County public schools.

**Community Welcome Wagon:** Established and enhanced programs in New Glarus, Brodhead, and Monroe where new residents can receive community information.

**Service Learning Project:** Informed school leaders about service learning, provided service learning implementation ideas and resources, and provided an opportunity for creating a network of interested school leaders who have common interests in service learning.

**Local Government Template Website:** Improved the ability of local governments to post information on the internet.

**Safety Town Program:** Facilitated the development of a place where children can learn and practice safety skills.

Each year 20-25 people from public, private, non-profit, and government sectors graduate from GCL.

## Who Benefits?

Everyone -- as individual capacity increases, so does the capacity of our communities!

### Participants Benefit By...

- Increased awareness of local issues.
- Enhanced leadership skills.
- Expanded network of local leaders.

### Employers Benefit Because...

- Employees are trained in leadership skills.
- Employees are able to be better engaged in our communities.
- Employer involvement in county activities.
- Employer profiled as a good corporate citizen.

### Green County Communities Benefit By...

- Active community leadership networking.
- County-wide collaboration
- Increased citizen participation in community issues.

### Green County Leaders Mission

*To provide an educational program where individuals can practice leadership skills, deepen their understanding of community issues, and prepare for leadership roles, thereby creating a network of individuals committed to the future of Green County.*
