## Precision Decisions: Refining Farm Profitability on Cropland

**Monday December 6, Noon- 1:15pm** — Free online webinar

Farm fields are not created equal. Variations in soil, slope, depth, moisture, and shade mean some areas of a field may actually be losing you money year after year.

Join us to learn how farms of all sizes and budgets can use their farm-specific information to identify areas where management changes or voluntary conservation programs can improve efficiency and profitability.

Local farmers and experts from UW-Madison Extension and Pheasants Forever will discuss and answer questions about:

- How variations in soils affect your crops
- Using yield and profit maps to identify underperforming areas
- Choosing alternatives that fit your operation and goals
- How to get started, including technology and equipment options
- Resources and programs that can help

This webinar is FREE, however pre-registration is required. Register online at <https://go.wisc.edu/ma1e3s> or contact the Iowa County Land Conservation Department at 608-930-9891.

*Brought to you by the UW-Madison Division of Extension, UW-Madison Nutrient and Pest Management Program, Pheasants Forever, and County Conservation Departments of Iowa, Grant, Green, and Lafayette Counties.*

## 2022 FSA Acreage Reporting Deadlines and Signature Requirements
