Extension
UNIVERSITY OF WISCONSIN-MADISON
GREEN COUNTY

An EEO/AA employer, University of Wisconsin-Madison Division of Extension provides equal opportunities in employment and programming, including Title VI, Title IX, the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act requirements

Managing Heifer Maturity Pre-&Post-Breeding Matters

Tuesday, March 15 from 1-2:30pm

Although the dairy heifer's age at breeding and calving are vitally important factors, the driver behind earlier calving is getting the animal to a breeding size that is 55% and calving size at 95% of the dairy herd's mature body weight. Learn the impact of a heifer's maturity at time of breeding and calving on her first-lactation performance and how to properly maintain the correct rate of gain in bred heifers.

Who's the Boss? The Transfer of Management on the Farm

Friday, March 18th, from 11am-Noon

This webinar will explore the challenges and opportunities associated with the transfer of management from one generation to the next. We will highlight research and resources for beginning the conversation, identifying what factors might impede on the transfer of management, and creating a timeline for when and how management could change hands

The Randomness of Repro

Thursday, March 29 from 1-2:30pm

Like a flip of the coin, reproductive outcomes are measured as a yes or no (binomial) outcome. Learn more about interpreting reproductive records, and the pitfalls of making decisions based only on one good or bad herd check

Develop Your Farm Business Idea Using Lean Start-Up & Business Model Canvas

Friday, April 1 from 11am-noon

Trying to figure out whether your business idea has any merit can be a daunting process. Business plans take a lot of time and energy to pull together for an idea you may not be sure will succeed. The Lean StartUp with Business Model Canvas is a tool and process for discovering the best business model for your idea without investing too many resources. It is most successfully used as a precursor to the business planning step. First you ask yourself, "Do I have a viable idea (business model)?" If yes, the next step is development of a business plan. But, there is no reason to go through all the work of a business plan if you don't have a good and viable business model to start with! In this session, Extension Specialist Kevin Bernhardt and Educators Steph Plaster and Ben Jenkins will walk through examples of how Lean Start-Up with Business Model Canvas can be used to stress test a new business enterprise or changes to your current business.

Strategic Thinking for the Farm Business: Putting Your Farm Values to Work

Friday, April 8th from 11am-noon

Strategic thinking is the intuitive, visual, and creative process you use to make decisions about your farm business. Strategic thinking is all about thinking ahead, anticipating what your competition is going to do, and then taking risks in order to succeed. Our values shape how we make the day to day and long-term decisions that affect our business and our future. Being able to define exactly what our personal, family, and business values are, allows us to more clearly understand our WHY – or what's behind what motivates us and drives us to make decisions, accomplish goals, and be successful. In this session, Extension Educator Steph Plaster will explore how to craft your values and put them to work in order to design your future rather than let the future happen to you.
