 GREEN COUNTY

An EEO/AA employer, University of Wisconsin-Madison Division of Extension provides equal opportunities in employment and programming, including Title VI, Title IX, the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act requirements

2022 Cover Crop Survey

Who is collecting this data and why

[CCROP](#) is a group of researchers and educators working with the University of Wisconsin and other partners to improve cover crop recommendations for the state of Wisconsin. We need to better understand how cover crops are being used, the challenges, and what benefits producers are seeing. Our goals are to help farmers like you make sound management decisions, improving decision support tools like SnapPlus and helping build the Wisconsin Integrated Cropping Systems Trial database.

Phase 1 - Online survey

1. **Sign-up to receive survey link-** Farmers filling out the survey will be eligible for a \$25 stipend. To sign up please [provide your contact information via this form](#). To safeguard your privacy, any field data you provide will *never* be associated with your personal information. We will not share any contact/personal information when sharing the survey results.

2. **Later this summer-** After you have provided us with your email and address, you'll receive a link to the data collection survey (complete for the \$25 stipend). We will also share a short instructional video providing useful information on gathering your cover crop data. We will share this survey later this summer for completion by late fall 2022.

Phase 2 - Biomass sampling

3. Farmers willing to allow us to visit the cover crop field and collect biomass samples and photos of the cover crops are eligible for an additional \$75 stipend. Additionally, we would appreciate additional photos of the cover crop throughout the growing season you collect (optional).

4. For those of you joining us in Phase 2, we will contact you in late fall 2022 to verify field location and ask permission to collect the optional biomass sample and photos.

We will share a final report with everyone during winter of 2022-2023, highlighting our findings and how your data compares to others. We'll also keep you informed via regular emails as the study progresses. Your participation is voluntary, and you can leave the project at any time. Thank you!

Questions or Comments?

Dan Smith, University of Wisconsin-Madison & Extension Southwest Regional Outreach Specialist for the Nutrient and Pest Management (NPM) Program dsmith@wisc.edu, 608-219-5170.

ROLLING HERD AVERAGES - HOLSTEINS
