Achieving a Positive Return on Investment in an Era of High Input Costs (a.k.a. Small steps, Big change)

The annual UW Agronomy, Pest Management and Soil, Water, and Nutrient Management meetings are moving to a new format this year and will be offered as a single day-long program. Two in person sessions as well as a virtual option will be offered. In-person sessions in Green Bay and LaCrosse will follow the same agenda. The virtual option will follow a similar but abbreviated agenda.

This year's program will be focused on the theme of "Achieving a Positive Return on Investment in an Era of High Input Costs (a.k.a. Small steps, Big change)." The meetings will present the latest information on agronomic, pest, and nutrient management research coming out of the UW with a lens to on-farm application.

In-person dates are Tuesday, December 13th from 9am-3pm in Green Bay or Thursday, December 15th from 9am-3pm in LaCrosse. The cost for the in-person session is \$150. Virtual dates are December 13th from 9am-12:45pm and December 16th from 9am-noon. Cost for the virtual session is \$50. To register for a session please visit <https://go.wisc.edu/80613p>. Dairy Production Needs Assessment

I am looking for some dairy producers to answer a few questions for a needs assessment for our area. If you would like to provide input on:

- What are the greatest dairy production opportunities on your farm now and in the next three years? (*positives of farming now*), and
- What are the most pressing dairy production challenges now and in the next three years? (*negatives of farming now*)

Please email jackie.mccarville@wisc.edu or call 608-328-9440.
