

Green County DHIA

February 2023

Upcoming Events

2/21	Badger Dairy Insight— <i>Corn Silage Strong Suits and Compliments</i> ; online webinar, 1-2:30pm
2/28	Midwest Manure Summit , Lambeau Field, Green Bay
3/2	I'm a Farmer Too , The Walker House, Mineral Point
3/7	Badger Dairy Insight— <i>Honing our Measures of Efficiency</i> ; online webinar 1-2:30pm
3/14	Badger Dairy Insight— <i>Emerging Technologies</i> ; online webinar, 1-2:30pm
3/21	Badger Dairy Insight— <i>Stimulating Cow Conversations</i> ; online webinar, 1-2:30pm

 Division of Extension provides equal opportunities in
 employment and programming, including Title VI, Title
 IX, the Americans with Disabilities Act (ADA) and
 Section 504 of the Rehabilitation Act requirements

Badger Dairy Insight Webinars

Submitted by: Jackie McCarville, Extension Dairy Educator

Badger Dairy Insight has developed a webinar series to provide the latest research-based dairy information to improve animal welfare, breeding and genetic selection, automation and modernization, and nutritional decisions for producers, dairy workers and managers, ag professionals, and educators. They will be held on Tuesdays, as listed, from 1:00pm to 2:30pm, beginning in January. To participate, sign up at the following link: <https://go.wisc.edu/bdi2023>

March 7th : Honing our Measures of Efficiency

Feed accounts for half the costs on most dairy farms. Cows with greater feed efficiency, cows that need less feed for each pound of milk produced, are likely to be more profitable. Cows that are more efficient need less land, create less waste and methane per pound of milk produced. Feed Efficiency is a heritable trait now measured as Residual Feed Intake (RFI) and Feed Saved. Francisco Penagaricano will share how you can incorporate these traits to create a more efficient profitable herd. How silos are managed, feed mixed, management of the manger, ration formulation and cow comfort can all impact feed loss and efficiency. We have come a long way from just considering bulk tank milk, or even pounds of milk solids produced to evaluate efficiency. As margins tighten, evaluating the conversion of feed into milk and what can be done to improve it is important. Learn this and more from Alison Pfau and Matt Lippert.

March 14th : Emerging Technologies

During this webinar, Doug Reinemann will share the latest information on Milking BioModels and Management on Robotic Milking Systems. Extension Educators Jackie McCarville and Angie Ulness will also hit on concerns and considerations for Somatic Cell Counts and Foot Health in robotic milking systems.

March 21st: Stimulating cow conversations: Providing an enriching environment for your herd

Jennifer Van Os is an Animal Welfare Specialist. During this webinar, learn that cattle have natural behaviors that may be constrained due to indoor or confined housing. Providing environmental enrichment allows the animals to explore their natural behaviors, and allow them to experience a more positive affective state, allowing them to be able to cope with challenges. Extension Educators Tina Kohlman and Aeric Bjurstrom will also share how transportation of any animal can be stressful, but perhaps more so for newborn calves and market cows. Best management practices can help reduce stress and improve animal welfare for those animals which go on the long haul.

To register for any of these sessions please go to: go.wisc.edu/bdi2023

Other Local Events

February 28th: Midwest Manure Summit

The purpose of the Summit is to provide innovation, research, and solutions to producers in the handling and storage of manure, economically and sustainable. The Summit will be held at the Lambeau Field Atrium
 To register please go to: <http://midwestmanure.org>

March 2nd: I'm a Farmer Too

A workshop geared towards women in agriculture. Topics include: Planning for the Unknown, Biosecurity, Telling your Farm Story, and Farm Safety. Attendees will also create an animal head welcome sign to take home. The workshop will be held at The Walker House in Mineral Point. The \$35 registration fees include materials, craft project supplies, lunch, and refreshments. For more information, please visit the website: <http://green.extension.wisc.edu>.

DID YOU KNOW GREEN COUNTY DHIA OFFERS MORE THAN JUST MILK TESTING?

Milk Testing provides the benefits that include milk weights, somatic cell count, butterfat, and protein. Green County DHIA also has the capability to pregnancy check (milk and blood serum); test for Johnes (milk sample); and do A1/A2 testing, BVD, Leukosis, and MUN (milk samples). Mastitis samples can test for 4 or 16 pathogens along with pooled samples. Diagnostics can easily be tested with milk samples pulled on test day.

Description	Price	Sample Type
MUN/Milking Cows	\$.25	Milk
Milk Pregnancy Test 1-10 Samples	\$5.00	Milk
Pregnancy Blood Samples	\$5.25	Blood Serum
BVD	\$5.00	Milk
Johnes	\$5.00	Milk
Leukosis	\$5.00	Milk
Mastitis Contagious 4-Panel (4 Pathogens-detects M bovis, Strep Ag., Staph Aureus, & Strep Uberis)	\$30.00	Milk
Mastitis Complete 16 PCR (16 Pathogens– detects Staph aureus, Strep ag., Prototheca, Staph species, Strep dysgalactiae, Strep uberis, Klebsiella pneumoniae & oxytoca, E coli, M bovis, Corynebacterium bovis, Enterococcus faecalis & faecium, Serratia marcescens, Arcanobacterium pyogenes & Peptostreptococcus indolicus, Steph beta-lactamase gene, Mycoplasma species, and Yeast)	\$40.00	Milk

Dairy record keeping not only benefits the farmer but the cows as well to better understand the herd as a whole and individual cows. Farmers can keep better data and records on cows, calves, heifers and even bulls to improve herd health, genetics, and milk production.
