### Farm Management FridaysWebinars

*Submitted by: Jackie McCarville, Extension Dairy Educator*

#### March 24th: How can you set your technology investment strategy to ensure farm business success?

Automation and technological advances offer many opportunities to increase labor efficiency and productivity, but they also carry risks and large costs. John Shutske, UW-Madison Professor and Extension Specialist in Biological Systems Engineering, and Steph Plaster, Extension Farm Management Outreach Specialist, will discuss information, considerations, and tools available to help set a farm's technology investment strategy and determine what will make the most impact on the business' success.

#### April 7th: Woods and taxes-understanding your assessment and reducing your burden

Is your tax bill higher than you would like? As a landowner your woodlots are often an overlooked source of cost. Join Darrin Kimbler and Tony Johnson as they discuss the different tax assessment options for woodlots. You will learn about land use assessment and Managed Forest Law as means of reducing your tax burden. You will also get resources on who to contact about the different programs.
