Alyssa Morris, Jessica Fecht, Christy Grenoble, Julie Lehnherr, Meagan Weckerly, Rebecca Bordner, and Sandy McArdle.

The Impact Green County project was launched to address the gap between local organizations needing volunteer support and community members eager to get involved. Recognizing the challenge of connecting these groups efficiently, we developed an online platform to serve as a central hub for volunteer engagement in Green County.

Through the website, organizations can post volunteer opportunities while individuals can easily browse and sign up to help. This simple, accessible tool empowers both sides—supporting local events, initiatives, and causes with a stronger, more organized volunteer base. As a result, the project has strengthened community ties, increased civic engagement, and helped nonprofits and community groups accomplish more with greater ease.

Materials Created; Facebook Page, Brochure, and 6 email strands.

“We have many incredible programs and organizations throughout our community that are always looking for volunteers. We also have many incredible people who are looking for ways to give back. Impact Green County is the perfect way to match those needs. When we think of others' lives as linked to our own, our compassion grows. When we reach a lending hand to one person, we influence many others. When we work to strengthen one neighborhood, we improve the health of our entire community. This is the perfect time for us to team together to address community issues that no one person or organization can do alone.”
