Dairy Spanish Webinar El "Break" Info-Lechero 2.0

Submitted by Alison Pfau

To help Wisconsin Spanish dairy workers and the Spanish dairy community to get the most current and update research information, UW-Extension has developed the Dairy Spanish Webinar El "Break" Info-Lechero 2.0. This Webinar is an update on different dairy topics covering reproduction, data management, animal welfare, animal nutrition, genetics selection, environment and more. Join The University of Wisconsin-Madison- Division of Extension's Dairy Program every Wednesday to the September, October, and November months from 12pm – 1pm CST for El "Break" Info-Lechero webinar series. We want to thank Smart Farming – Ganaderia Inteligente for sponsoring this webinar.

The Dairy Spanish Webinar is going to be in Spanish ONLY. There is no charge to participate in these sessions, however, pre-registration is required to allow access. To register for the El "Break" Info-Lechero 2.0. Webinars please visit: <https://go.wisc.edu/elbreak-infolechero>

Establishing alfalfa following wheat

Submitted by: Scott Newell

A late summer seeding of alfalfa following a spring wheat crop is a great option to maximize seasonal productivity and fits very well as a part of a diverse crop rotation. Aside from the usual considerations when performing a late summer seeding of alfalfa, there are a few considerations to keep in mind when planting alfalfa following a wheat crop: the potential for residual herbicide damage to alfalfa and the impact of volunteer wheat.

Herbicide Carryover

Some herbicides applied for weed control in wheat can affect alfalfa establishment. To read more, go online and view the [Alfalfa Rotational Restrictions](#) for herbicides of concern to alfalfa following wheat.

Volunteer Wheat Control

Competition from volunteer wheat, especially in combine windrows, can impact alfalfa establishment and subsequent productivity. Detrimental effects on alfalfa were seen in research trials when wheat made up more than 35% of biomass in spring harvests.

Timely fall management with effective herbicides can alleviate this competition. Apply herbicides when volunteer wheat is 4-6" tall. Glyphosate on RoundUp-ready alfalfa and grass-specific herbicides in conventional alfalfa worked the best in research trials. Sethoxydim (Poast Plus) performed best of the grass herbicides tested.

To see more details on herbicide efficacy, view the [Managing Volunteer Wheat in Late Summer Seeded Alfalfa](#) UW research trial.

DID YOU KNOW GREEN COUNTY DHIA OFFERS MORE THAN JUST MILK TESTING?

Milk Testing provides the benefits that include milk weights, somatic cell count, butterfat, and protein. Green County DHIA also has the capability to pregnancy check (milk and blood serum); test for Johnes (milk sample); and do A1/A2 testing, BVD, Leukosis, and MUN (milk samples). Mastitis samples can test for 4 or 16 pathogens along with pooled samples. Diagnostics can easily be tested with milk samples pulled on test day.

Description	Price	Sample Type
MUN/Milking Cows	\$.25	Milk
Milk Pregnancy Test 1-10 Samples	\$6.00	Milk
Pregnancy Blood Samples	\$6.00	Blood Serum
BVD	\$6.00	Milk
Johnes	\$6.00	Milk
Leukosis	\$6.00	Milk
Mastitis Contagious 4-Panel (4 Pathogens-detects M bovis, Strep Ag., Staph Aureus, & Strep Ueberis)	\$30.00	Milk
Mastitis Complete 16 PCR (16 Pathogens- detects Staph aureus, Strep ag., Prototheca, Staph species, Strep dysgalactiae, Strep uberis, Klebsiella pneumoniae & oxytoca, E coli, M bovis, Corynebacterium bovis, Enterococcus faecalis & faecium, Serratia marcescens, Arcanobacterium pyogenes & Peptostreptococcus indolicus, Steph beta-lactamase gene, Mycoplasma species, and Yeast)	\$40.00	Milk
Single Mastitis (Detects M bovis or Staph aureus)	\$10.00	Milk
A1/A2 Sample Diagnostics	\$10.00	Milk, Blood Serum

Dairy record keeping not only benefits the farmer but the cows as well to better understand the herd as a whole and individual cows. Farmers can keep better data and records on cows, calves, heifers and even bulls to improve herd health, genetics, and milk production.
