Save a Calf, Save a Cow Workshop

This workshop provides information and techniques to boost your confidence in preparing the cow for calving, obstetric techniques and newborn calf care. From transition cow diets and body condition to recognizing key signs of labor and handling difficult deliveries with precision, this program equips you with practical strategies to support both cow and calf health. Whether you're seasoned or new to livestock care, you'll gain hands-on expertise to approach calving with assurance, improve outcomes, and enhance the well-being of your herd.

Topics covered during the virtual (Zoom) classroom include:

- Getting newborns off to a good start: neonatal calf care and colostrum management
- Cow nutrition and management pre- and post-calving health and reproductive success (breakout into either beef or dairy)

During the in-person session, participants will learn and practice:

- Stages of labor and signs to watch for - when to call for help
- Calving equipment options and function/sanitation/cleaning
- Worker Safety - cow & calf handling/ needles/ PPE/ biosecurity

The series costs \$20/person. To attend the in-person session, you must have attended a prior Zoom session. For your convenience, you may choose an late morning or evening ZOOM and an in-person hands-on combination that fits your needs:
